

## **A.S. Création Press Release**

Gummersbach, August 2009

### **The Mirage Collection**

The **Mirage** collection offers the joys of life through its new floral and geometric motives and creates a charming idyl in your home by its surprising details. An elongated embellishment has the effect of crushed silk and shimmers changeably according to the fall of the light and provides an elegant background for all the motive wall coverings. As though in an enormous work of art the decorations come at you: flowers, buds or geometric curves and grids evoking a globe of the world. You get the impression that the fine decor is hand-painted. **Mirage** presents the international trend colours from soft skin colour, cafe, grey and white tones through to powerful wine red or turquoise. In motives, the shiny accents are set by metallics like copper, gold or silver. **Mirage** - a wall covering for contemporary and traditional styles of living.
