Gummersbach, December 2010

A.S. Création presents the second BRIGITTE Home Collection

In the past year the Gummersbach wallpaper manufacturer, A.S. Création, started work, very successfully, with a new partner. For BRIGITTE Home, the market leaders among the classic German women's magazines, they created a collection under license. This high value wallpaper line is directed at a stylishly-knowledgeable, fashion-savvy consumer and offers a portfolio of elegant and currently trendy wallpaper models.

This second joint collection, BRIGITTE Home II will be presented at *Heimtextil 2011* in Frankfurt.

For 2011 Brigitte Home swathes the four walls in romantic clothing which draw out the cosiness of the country house style and activates the modernity of the abstract decoration. Multi-dimensional embossed structures provide the view of the wall with an exciting, palpable second-view effect. Large scale bud prints and discreet variations of stripes unveil a harmonic, friendly effect using classic colour schemes in cream, beige and mocha. A fruity, saturated, berry-red together with clear nuances of white and grey create a sense of freshness. To that is added single coloured wallpapers in vintage style which can be combined with the designs either by means of tones or contrasts. The corresponding borders provide styling variation.
