

**A.S. Création Press Release**

Gummersbach, October 2011

**Flock 3 - opulent and splendid**

Opulent decoration, expressive colours and an extravagant 3D optic - the third collection in the successful flock sequence takes you on a time-travel through styles and epochs. Modern interpretations of baroque arabesque reminiscent of brocades rub shoulders with playful rococo tendrils and Japanese inspired chrysanthemum buds. Also classical stripes, fancy graphics and chain patterns, some in gold embossing on a violet background form an exquisite setting for a prestigious stylish ambiance as well as for modern puristic interiors.

The sophisticated look of this sumptuous collection thrives on strong contrasts and powerful colours such as deep berry tones, coffee house colours, flaming orange, luminous pink, petrol and mustard yellow as well as classic black and white which are both trendy and timeless at the same time. Effective matt-gloss embossments, mother of pearl shimmering and plastic flock prints underline the intensive effect of the patterns and create a one-off effect on the room.
