

A.S. Création Press Release

Gummersbach, October 2011

Sunlight 2 - a precious breath of late summer

The success of the first sunlight collection called for a follow up. The new wall decorations inspire us with a nifty texture which reminds us of hand-made paper with satin appliqué. Floral elements and delicate stripes as though from Japanese ink drawings accentuate their exquisite character. Single colours with mother-of-pearl or metallic effects complement these noble papers in harmonic co-ordinated warm late summer tones.
