

A.S. Création Press Release

Gummersbach, October 2011

Zanzibar - For this is Africa!

Wallpaper design goes African! The new Zanzibar collection impresses through unusual designs and textures. The surfaces are reminiscent of lizard and elephant hide on sand and the rough covering of simple mud huts. Abstract leaves and ornaments inspired by African masks conjure up a breath of Africa on the wall. Warm sand and savanna tones underline the exotic appeal and exude an intensive cosy atmosphere.

Zanzibar Collection
